PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building interactive applications in React.js and Python. Strong foundation in front-end development, programming logic, and UI design, with a proven ability to learn new technologies quickly and deliver functional, user-focused projects. Seeking an entry-level role in software development to contribute technical skills and grow within a collaborative engineering team.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Web Technologies: HTML, CSS, React.js

PROJECTS

Stopwatch Web App | *React.js*

- Built a fully functional stopwatch application with start, stop, and reset functionality.
- Used React hooks (useState, useEffect) to manage real-time time tracking and component updates.
- Designed a clean, responsive, and interactive user interface.

Angry Bird Game | *Python*

- Developed gameplay mechanics and multiple engaging levels using Python.
- Implemented realistic game physics for bird trajectories and object interactions.
- Incorporated user feedback to iteratively improve game features and experience.

Super Mario Game | *Python*

- Designed challenging, fun game levels with animated characters and environments.
- Integrated a database to support game data and state management.
- Collaborated with a multidisciplinary team to deliver high-quality game content.

EDUCATION

B.Sc. in Computer Science — GPA: 7.93

M.S. College of Arts, Science, Commerce & B.M.S, University of Mumbai | June 2024

LANGUAGES

English, Hindi
